**1000 Series
Lube Master Spray System**

PRODUCT:

CAUTION: For industrial use only. Avoid contact with eyes and skin.
FIRST AID: In case of eye contact, flush with large amounts of water. If irritation occurs, get medical attention. If swallowed, do not induce vomiting. Get immediate medical attention. If skin contact, wash thoroughly with soap and water.
RISK: Remove contaminated clothing and footwear before reuse.
SPILL: In case of large spill, absorb and pump the contents for reuse or landfill. Do not wash into storm drains or waterways. Wash up with abundant water and soap.
STORAGE: Store in a cool, dry place. Avoid contact with incompatible materials. Dispose of according to local, state, and Federal regulations.
Hazardous when mixed with other materials. Contains water-soluble lubricants and surfactants.

BIOLUBE

The original innovator in saw lubrication.

Quit your pitching with our proven system

Lube Master 1000

The rugged all-pneumatic **Lubie® spray system** is specifically designed for Lubie® products and backed with a 100% satisfaction guarantee. Lubie® Systems are reliable and a cost-effective way to accurately atomize the correct formula of Lubie® Lube onto the saw blade, knife or other tooling.

Simply install the proper amount of nozzles, connect your air supply and the spray system is operational. Lube flow is quickly and easily adjusted. Available nozzle configurations are 2, 4, 6, or 8 nozzle.

100% Satisfaction Guarantee!

Give Biolube or one of our distributors a call at 260-414-9633 and find out how easy it is to improve your profitability.

Lubie® Saw Blade Lubricants

Lubie® saw lubricants prevent resin and pitch buildup by reducing friction when applied with our **Lube Master 1000 Spray System**. Biolube offers formulations for both hard and softwood and are designed to reduce the friction and heat.

*Expect to use 1 qt. of Lubie® Lube per day for a pitch-free blade on wide-band saw applications.
